

Kelvin L. Chou, M.D.

Dr. Chou is a Professor of Neurology and Neurosurgery at the University of Michigan (U-M), Co-Director of the STIM (Surgical Therapies Improving Movement) Program, and the Education and Outreach Core Director for the U-M Udall Center of Excellence for Parkinson's Disease. He received his medical degree from U-M Medical School, completed his neurology residency at the Hospital of the University of Pennsylvania in Philadelphia, and a movement disorders fellowship at Pennsylvania Hospital in Philadelphia. Dr. Chou's research is focused on improving the ability to treat movement disorders patients through deep brain stimulation (DBS). Dr. Chou has also conducted numerous clinical trials on new therapies for movement disorders, including the NIH Exploratory Trials in Parkinson disease (NET-PD) initiative. He has published over 70 peer-reviewed journal articles on Parkinson's disease and related movement disorders and has authored a book for patients and families called *Deep Brain Stimulation: A New Life for People with Parkinson's, Dystonia and Essential Tremor*.
